DEPARTMENT OF ENERGY

Final Environmental Impact Statement for Programmatic Spent Nuclear Fuel Management and Idaho National Engineering Laboratory Environmental Restoration and Waste Management Programs

AGENCY: Department of Energy.

ACTION: Notice of Availability.

SUMMARY: The Department of Energy (DOE) is giving notice of the availability of the final environmental impact statement (EIS) for Programmatic Spent Nuclear Fuel Management and Idaho National Engineering Laboratory (INEL) Environmental Restoration and Waste Management Programs (DOE/EIS-0203). The final EIS was prepared in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA); Council on Environmental Quality regulations implementing NEPA, 40 CFR Parts 1500-1508; and DOE NEPA Implementing Procedures, 10 CFR Part 1021. The final EIS addresses Department-wide spent nuclear fuel (SNF) management strategies for the transportation, receipt, storage, and processing of these fuels. In addition, the final EIS addresses proposed environmental restoration and waste management activities at the INEL. The Department of the Navy was a cooperating agency in preparing this EIS.

Upon completion of general distribution of the document, DOE will file the final EIS with the Environmental Protection Agency, which will then publish a Notice of Availability in the Federal Register. The final EIS will also be available to the public in DOE reading rooms and designated information locations which are identified in this notice. DOE plans to issue a Record of Decision on the final EIS by June 1, 1995.

ADDRESSES: Requests for copies of the final EIS and for further information on the final EIS should be directed to: U.S. Department of Energy, Idaho Operations Office, Office of Communications, Attention: Brad Bugger, 850 Energy Drive, MS 1214, Idaho Falls, ID 83402. Mr. Bugger can be reached by telephone

at: 208-526-0833. Addresses of DOE Public Reading Rooms, Navy Information Locations, and other locations where the final EIS will be available for public review are listed below under "Supplementary Information."

General information on the DOE NEPA process may be obtained from Ms. Carol Borgstrom, Director, Office of NEPA Policy and Assistance (EH-42), U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585. Ms. Borgstrom may be reached by telephone at: (202) 586-4600 or by leaving a message at (800) 472-2756.

SUPPLEMENTARY INFORMATION:

Background

DOE issued a draft EIS for public comment and published a Notice of Availability in the Federal Register on June 24, 1994 (59 FR 32688). Thereafter, DOE held 33 public hearings in 20 cities across the nation in order to obtain public comments on the draft EIS. In addition, public comments were received by mail, a toll-free telephone line, and facsimile. More than 1,430 commentors, including a broad spectrum of private citizens, businesses, local, state and federal officials, Native American Tribes, and public interest groups, commented on the draft EIS. Comments are summarized in Volume 3 of the final EIS. DOE and Navy responses to those comments are also provided in Volume 3, as well as discussions of which comments resulted in changes to the EIS.

Public comments on the draft EIS were assessed and considered both individually and collectively by DOE and the Navy. Some comments resulted in modifications to the EIS. For other comments, DOE explained why a change to the EIS was not warranted. Most responses to such comments communicated government policy, indicated that the comment was beyond the scope of the EIS, explained the relationship of this EIS to other related NEPA documents, referred commentors to information in the EIS, answered technical questions, or further explained technical issues.

The final EIS, like the draft EIS, addresses the potential environmental impacts associated with alternatives for managing DOE spent nuclear fuel on a national level (Volume 1). The final EIS also addresses potential environmental impacts related to the management of solid, radioactive, mixed and hazardous wastes, spent nuclear fuel, and environmental restoration activities at the INEL (Volume 2).
